

HOW TO SIZE ACHIEVEMENT JACKET

Step #1

Chest Measurement:

To arrive at the correct chest measurement, measure around the chest, under the arms, over the bust, over the shoulder blades and between the armpits and sternum. Do not pull the tape tight, but let it lie comfortably on chest. If you need body adjustment, refer to body alteration drop down box.

Step #2

Sleeve Measurement:

To arrive at the correct sleeve length, measure from the center of the back of the neck, over the end of the extended arm (bent at a 90 degree angle) to the wrist bone. If your sleeve length does not fall within the sizing chart, please refer to the sleeve alteration down box.

Step #3

Center Back Measurement:

Measure from the knot on the back of the neck, down to the bottom of the belt line.

Step #4

Waist Measurement:

Measure around your waist line. Usually your jean/pant waist size.

Follow the sizing chart downward to determine the correct size.

PLEASE NOTE: if you have a larger measurement in one column (e.g. chest) but have a smaller measurement in another column (e.g. sleeve), please determine your size as close as possible according to your unisex sweatshirt size.

Recommendations:

If you are Freshmen or Sophomore, consider sizing up one size.

The best way to determine your size is to try on a jacket from a fellow student.

Jackets are unisex, designed to fit bulky and oversized — you can alter sleeve and body lengths if needed.

Under 5'7": Shorten 1"
 6'1" - 6'3": Lengthen 1"
 Over 6'3": Lengthen 2"
